Response of User Experience Evaluation (UEQ) of the Developed Naviga

Questions Responses 11 Settings

Section 1 of 2

### User Experience Evaluation (UEQ) of the Developed Navigation Application

We Ahmad Afiq Bin Abdul Rahman, Muhammed Faris Bin Bedrul Hisham and Rusydan Bin Jaman, a semester 4 student enrolled in the bachelor of Information Science (Hons.) Information System Management (CDIM262) at Universiti Teknologi MARA (UiTM), Puncak Perdana Campus.

This questionnaire is conducted in partial fulfillment of the IMSS64: User Experience Design group assignment.

The purpose of this study is to examine users experiences and perceptions of CampusGo.

The evaluation focuses on how these applications support users through their interface design, functionality, and overall user experience.

Participation in this study is entirely voluntary. All responses will be kept strictly confidential and will be used solely for academic purposes. No personally identifiable information will be collected. The questionnaire is expected to take approximately 10-15 minutes to complete.

Before responding to the questionnaire, participants are kindly requested to familiarize themselves with the Citymapper, Komoot, and Strava to ensure informed and accurate responses.

Your time and cooperation in participating in this study are sincerely appreciated.

Are you familiar using Navigation Application?

Yes

No

Section 2 of 2

### CampusGo

CampusGo is a mobile navigation application developed to address navigation and information access challenges faced by students at UiTM Puncak Perdana, particularly within the Faculty of Information Management building. The application is designed to provide students with an intuitive and user-friendly platform that combines indoor navigation with academic-related information in a single system.

How does using the app feel? / Bagaimanakah perasaan anda menggunakan aplikasi ini?
